Nikolaos -Stefanos Kostagiolas

Curriculum Vitae

Education

2017–present **M.Sc. in Data Science**, *Athens University of Economics and Business*, Greece.

2011–2017 **B.Sc. Informatics and Telecommunications**, *Dept. of Informatics and Telecommunications, National and Kapodistrian University of Athens*, Greece, *7.8/10*.
Specialization : Data and knowledge management

2008–2011 **Apolytirion**, *2nd High School of Moschato*, Athens, Greece, *18.3/20*.
Awarded with excellence

B.Sc. thesis

title *A Study on chromatin structure via nucleosome positioning pattern classification*

supervisors Prof. Panagiotis Stamatopoulos, Dr. George Giannakopoulos

description Applied text-mining on genomic sequence textual data using HMM, Bag-of-Words and N-gram Graph representations. Achieved better results than the current state-of-the-art approaches in related studies.

Experience

Vocational

March 2015–October 2015 **Internship - Data Warehousing and Data Mining**, *IBM Hellas*, Athens, Greece.
Worked as an ETL Expert for the projects "SOLVENCY II" at Ethniki Hellenic General Insurance Co. S.A. and "Energy Trading & Risk Management" for the Greek Department of Energy Management .
Detailed achievements:

- Evaluated as "Excellent" by my supervisor Minas Koulisianis for both projects I was involved into;
- Undertook the ETL development for the project "Energy Trading & Risk Management" individually and delivered with excellent performance :
  - Being the only individual of my team trusted with the position after spending 3 months at Ethniki Hellenic General Insurance Co. S.A. (a);
  - Successful completion of my tasks by setting up the ETL infrastructure by the end of the internship (b)
  - Received official offer by IBM Hellas for full occupation as an ETL Expert by the end of the internship(c);

June 2014–September 2014 **Internship - Back-end Developer**, *Technical University of Athens*, Athens, Greece.
Developed and improved the e-class mobile API, used by most greek universities for extra-class communication - Selected 2nd among 130 candidates. The project was co-supervised by the Maellak Unit of Excellency in Open-source Software

Academic

January 2017–today **Inria Galen Team - Ecole Centrale Supelec Centre for Visual Computing**, *Research Intern*, Paris, France.
I am currently conducting research on Multimodal Deep Metric Learning, with applications in Medical Imaging. My supervisor there is Dr Evangelia Zacharaki.

July 2016–today **Volunteer Undergraduate Research Associate**, *CIL Lab - NCSR Demokritos*, Athens, Greece.
Conducting research on Deep Learning architectures applied on Sound Analysis under the supervision of Dr. Theodoros Giannakopoulos. The project, entitled "Convolutional Neural Networks for Automatic Soundscape Quality Estimation using Audio Analysis", focuses on applying novel deep architectures to the problem of qualitative soundscape evaluation.

September 2015–today **Undergraduate Research Associate**, *SKEL Lab - NCSR Demokritos*, Athens, Greece.
Conducting research on Natural Language Processing and Bioinformatics under the supervision of Prof. Panagiotis Stamatopoulos and Dr. George Giannakopoulos. I am currently working there on my B.Sc. thesis entitled "A study on chromatin structure via nucleosome positioning pattern classification" focusing on genomic text-mining.

Voluntary

January 2013–June 2015 **Volunteer Teaching Assistant**, *Dept. of Informatics and Telecommunications - National and Kapodistrian University of Athens*, Athens, Greece.
Voluntarily worked as a Teaching Assistant in Introduction to Programming and Data Structures Lab

September 2013–June 2016 **Volunteer Teacher**, *Municipality of Moschato-Tavros*, Athens, Greece.
Voluntarily working as a teacher for the Municipality of Moschato - Teaching High School Programming Development.

Languages

Greek	**Independent user**	*Native*
English	**Independent user**	*Certificate of Proficiency - Michigan, IELTS 8 Band Score*
French	**Upper Intermediate user**	*Delf B1*

Computer Science skills

Programming Languages	C++, C, JAVA, C#, Prolog, SQL, Assembly(MIPS)	Scripting Languages	Matlab, Python, Unix Shell (Bash)
Machine Learning Frameworks and Toolkits	**JAVA**: Weka, Mallet, **Python**: Theano, Lasagne, Keras, scikit-learn	OSs Familiarity	Windows, Linux, OS X
Web based	$HTML_5$, CSS_3, JavaScript	Software	MySQL Workbench, Eclipse, Visual Studio, LaTeX

60C, Korai St. – Moschato, Attiki, 18345 – Greece
+30 69 80 66 22 27 • +30 (210) 94 08 186
nikos.kostagiolas@gmail.com • sdi1100039@di.uoa.gr

Research Interests

Deep Learning	Theoretical aspects of Deep Learning including meta-learning, generative models and reinforcement learning
Multi-modal Machine Learning	Synergies between vision and language models, multi-modal semantic extraction, general purpose architectures
Machine Learning for Health Studies	Genomic text-mining, Biomedical Imaging, Rehabilitation Engineering and Brain-Computer Interfaces

Projects

- **Rotamer-Pair Clustering**. Successfully extended the M.Sc. thesis of Anaxagoras Fotopoulos and Athanasios Papathanasiou by introducing the c-RMSD and d-RMSD distances to the k-means algorithm. This project, written in Matlab, was co-supervised by Prof. Ioannis Emiris and Assoc. Prof. Evangelia Chrysina.
- **Nucleosome Positioning Pattern Recognition**. Genomic text-mining JAVA application. Developed for my B.Sc. thesis using *Weka Data Mining Software*, the *Jahmm* Library and *JInsect* Toolkit. Code on Github
- **lamda-Calculus Interpreter writen in C**. Lambda Calculus interpreter implemented in ANSI C for the requirements of the course "Programming Languages Principles". This project was awarded the best degree in the class (40 other individuals). Code on Github
- **Parallel Convolution (written in MPI - MPI / OpenMP - CUDA)**.A Project for parallel image convolution which I undertook along with my classmate Jim Mouris. This project achieved one of the five top grades in the class "Parallel Systems". Code on Github

Honors & Awards

- 1st position (National) and 1st position (European) in Night of the Living Devs hackathon (Organized by Microsoft Co.).
- Scholarship for Undergraduate Internships (Full financial support from the European Union).
- Participation in Mediterranean Days @ Campus SophiaTech, France (Full financial support)
- Offered and accepted research internship by the Inria GALEN Team and the Center for Visual Computing of Ecole Centrale de Paris, starting in early 2017.
- Honorary Award in Poetry by the International Art Society
